

BEADS

Beads offer the highest standard available on the market. The high-quality precision cutting and the clear through-hole achieve immense brilliance and create unique sparkle. Rounded hole edges reduce the wear on thread and increase the durability of designs. Beads are available in a wide range of classical, elegant as well as playful shapes and cuts.

They come in a huge assortment of vibrant colors and effects to allow myriad possibilities for different design combinations. The main application techniques are beading, wiring, stringing, and weaving. Different hole diameters open up new unlimited application and design possibilities particularly for apparel and accessories embellishment.

For details on available colors and effects for each article within the product groups, please see the product matrix of the respective item in the Collection 2021. For color and effect samples, please see the corresponding color chart. Please check the Swarovski Collection 2021 for all available crystal color and AB coating variations.

The plating resistance of effects is tested according to Swarovski's plating guidelines (SWAROVSKI.COM/S-PROFESSIONALS). Customers are advised to carry out their own tests if their plating parameters diverge from Swarovski plating guidelines.

* Crystals are not resistant to plating and similar processing.

¹ Majestic Blue's intense ultramarine hue is difficult to recreate accurately in print due to the fact that the CMYK color spectrum is used in the printing process. In order to get a truer impression of its color, please use RGB digital pictures or, ideally, ask for actual samples.

² Effect is also available as 2x.

Classic Colors/Effects: This color range offers a wide choice of traditional Swarovski crystal colors and effects.

Exclusive Colors/Effects: This color range is offered exclusively by Swarovski.

Colors and effects can appear different when illuminated with different light sources. Swarovski uses standard light source D50 for color decision and comparison. Slight changes in shades are unavoidable. Colors may vary according to cut and foiling.

The composition of Advanced Crystal is compliant with regulatory industry norms and laws regarding the restriction or prohibition of certain substances in the most relevant segments of our customers. Please note that the compliance of the crystal colors Light Siam and Siam varies according to certain industry regulations. Those regulations are indicated with * in the compliance overview.
